## DivGro Fund – 15 September 2023

### Strategy & Objective

DivGro is a growth fund powered by fast rising dividends. We are the go-to home for investors seeking above average returns that are easier to hold. The DivGro system has predicted and captured 135 consecutive dividend increases at an average rate of 15.36%.

The DivGro Fund operates a dividend growth strategy. We select the most outstanding global companies with fast rising dividends. Over time we expect the rate of growth in the dividends of our portfolio holdings to translate into a similar rate of growth in their stock prices, creating substantial capital growth. The DivGro Fund makes quarterly distributions to investors and expects to increase the distributions every year. The frequent receipt of cash provides a valuable positive feedback loop that helps investors retain conviction in our long-term approach, especially in times of higher volatility, making it easier to maintain composure and remain invested to achieve excellent long-term results.

Academic Basis	The Essence of DivGro
The DivGro strategy is informed by extensive academic studies which demonstrated that:	The essence of the DivGro Fund can be summarised as follows:
<ol> <li>Dividends are easier to predict than earnings or stock prices</li> <li>Companies that consistently raise their dividends outperform</li> <li>Over time stock prices rise commensurately with percentage increases in dividends</li> </ol>	<ol> <li>Identify outstanding companies that will raise their dividends materially</li> <li>Isolate privileged businesses that can sustain material dividend increases for many years</li> <li>Encourage positive engagement via our unique weekly dividend progress reporting system</li> </ol>
These dynamics have been repeatedly tested and proven for over 60 years.	We have a track record of 135 consecutive raises, at an average of 15.36%.
